Titan 841-22"

TITAN Series of Chairs Assisted Living / Senior Care

The TITAN Series of chairs balance elegance and sophistication with versatility & durability. The luxuriously upholstered seat provides support and confidence required by today's senior guests / residences. Chair widths range from 20"-22".

The Titan chairs are rated to 800 lbs.

Tough and durable steel frame. Frame is contoured using a mandrel bend & welds are enforced for superior strength.

The Cold Cured Foam seat cushion repels water & other liquids from being absorbed into the cushion.

StaFast "T-nuts" are used extensively to attach the seat / back to the frame, providing superior holding power.

Poly open arms caps allow for easy grip and a large wipe-out design allows for easy maintenance & clean up.

c/w Royal EZ

The Royal EZ

The Royal EZ is a lever attachment, that enables a caregiver to move a seated person up-to-away-from the table with ease and safety!

Using the Royal EZ:

- There is no need to push, twist, or shove a seated person to the table. Chairs roll with minimal effort!
- The risk of strain and injury to a caregiver's back is reduced significantly.
- Damage to floors and furniture as a result of chairs being dragged is eliminated!
- Guests experience an increased sense of self-worth and dignity!
